COBEY FIRE

Intelligent safety for unmanned locations!

The **BUSHSAFE Stand-alone** Early Warning Smoke Detection, SMS Communicator, without **FireGrafix** and Telegram Notifications.

Main Features of the **BUSHFIRE** SMS Controller-Alarm:

Standard Package list:

- 1 x GSM Controller
- 1 x Power supply adapter (12V 1.5A)
- Solar Charger
- 1 x GSM Antenna
- Optical Smoke Detector – a tubular chamber for smoke to enter, which houses the light beam and sensor used to monitor for smoke and raise appropriate alerts and alarms.
- The package can be suitably camouflaged to be unobserved by passers-by.

**Please note:** Each **BUSHSAFE** system is built based on an assessment of the environment, i.e., GSM coverage and site suitability, a quote, and an order.
